REPORT OF LIBRARY TRUSTEES

We are glad to report continued growth and prosperity for the Goshen Public Library. The need for more shelfroom for books has been met by installing two new double stack bookcases, one of which was the generous gift of Mrs. Emerette A. Hall, who was our first librarian, and who has always retained a warm interest in the welfare of the library. Mrs. Hall also presented a fine portrait of herself to the library.

Our thanks are also due to Mr. H. H. Halladay of Brookline, Mass., for a large steel engraving of the Declaration of Independence, also to Mrs. Flora Stevens, of Plymouth, Mass., for the Good Housekeeping Magazine. Thirty-four new volumes have been added to the library by purchase and a subscription to the Granite Monthly which will now be found upon our reading table, also the Dearborn Independent.

We were fortunate in having the services of Mrs. W. L. Whipple as librarian and hope to retain her help for the year to come.

AUDITOR'S REPORT

This is to certify that I have examined the books and accounts of the treasurer and school board for the school year ending June 30, 1926 and have found them correct with proper vouchers.

Russell Whitney, Auditor.

SUPERINTENDENT'S REPORT

To the School Board and Citizens of Goshen:

In my twenty years of experience in school work I do not think I have ever seen schools better contented or happier in purposeful work than the enrollment of pupils in our schools at present. I do not know where you would find two teachers who could fit into their respective situations better than Mrs. Brown and Miss Dimick. It has been a very real pleasure to observe the work in these two schools this year. It always seems to be of the same, uniformly high order.

I might say that pupils entering high school this fall from both schools are well prepared to carry on the work. This speaks well for our schools.

The Village school has had a very real transformation during the summer. No school room in this school union has been improved more in appearance than this one. The new paint has put a lot of sunshine in the room. The new heater has added health to the room. It would not have been possible to have accommodated the twenty-six pupils in this schoolroom with healthy surroundings had it not have been for the new heating and ventilating system. This was an investment in health. It is noticeable that pupils in schools of larger enrollment do better work where the room is properly heated and ventilated. I am able to observe this in a two-room school where the adjoining rooms are heated differently, one with the ordinary jacketed stove, the other with a schoolroom heater like the one at Mill Village. The contrast is great both in scholarship and healthful conditions. It is hoped that we may complete the transformation at Mill Village this next summer by building a wood shed at the rear of the schoolhouse, thereby releasing the present wood shed for storage for the pupils' wraps, taking the space into the schoolroom the same as it was done at Number Five.

I have no news but good news this year relative to our schools, consequently the report is necessarily short. I am grateful for the fine support accorded me by the School Board and the fine backing accorded the schools by the citizens. With such mutual support of our schools together with a splendid attitude toward our schools emanating from the State Board of Education I can see no reason why we shall not be able to equal the work in the fundamentals of any schools in the state. Anyway, we will keep this in mind as our goal. With superior teachers and good equipment, together with good backing as already accorded, nothing can obstruct our view of the high goal which we have set for ourselves.

Respectfully submitted,

True C. Morrill

Superintendent of Schools.
